New national side of euro coins intended for circulation

(2011/C 19/05)

National side of the new commemorative 2-euro coin intended for circulation and issued by France

Euro coins intended for circulation have legal tender status throughout the euro area. For the purpose of informing the public and all parties who handle the coins, the Commission publishes a description of the designs of all new coins (¹). In accordance with the Council conclusions of 10 February 2009 (²), the Member States of the euro area and countries that have concluded a monetary agreement with the Community providing for the issuing of euro coins are allowed to issue commemorative euro coins intended for circulation, provided that certain conditions are met, particularly that only the 2-euro denomination is used. These coins have the same technical characteristics as other 2-euro coins, but their national side features a commemorative design that is highly symbolic in national or European terms.

Issuing country: France

Subject of commemoration: 30th anniversary of the Day of Music

Description of the design:

The inner part of the coin depicts a cheerful crowd, with a stylised image of a musical instrument and notes floating in the air, denoting the atmosphere of celebration on the Day of Music, which has been celebrated in France every summer solstice since 1981. The words 'Fête de la MUSIQUE' and the date '21 JUIN 2011' appear at the centre of the drawing. On top, slanting rightwards, are the words '30° ANNIVERSAIRE', and the country indication 'RF' appears at the bottom.

The coin's outer ring depicts the 12 stars of the European flag.

Number of coins to be issued: 10 million

Date of issue: June 2011
